Hi Garth,

No worries. I'll email Rick now and ask my management to contact Paul. The last time I saw him was at the PFAS summit here in DC!

Peace, Elisabeth

Elisabeth,

Sorry I intended to tell you that Rick Rogers, the Regional POC for PFAS is actually going to do that. Also remember Karen isn't the right person (Enforcement Division Director), you have to contact Paul Leonard, Acting Division Director in Superfund.

Hi Roger,

Just wanted to let you know that my DD will be contacting Karen M about you participating in the upcoming Superfund DD VTC meeting on 3/26. My office director, Cyndy Mackey, would like a couple of regions to talk about their experiences in addressing PFAS contamination. Region 1 will discuss a federal facility; Region 4 will discuss the Chemours facility in Fayetteville, NC which is dealing with GenX and PFOA contamination; and, Region 5 will discuss a RCRA site.

The Parkersburg facility has several interesting aspects – joint CD with Reg 3 and 5, amended state permit to include PFOA, etc. Are you okay with presenting information for about 5 minutes? Cyndy is hoping to highlight the work regions are already doing as well as to demonstrate to those DDs who haven't addressed PFAS contamination that there are tools outside of CERCLA to address PFAS, etc.

Thanks, Elisabeth
